

# Joined Up Careers Derbyshire

## ***Enrichment Presentations/Workshops***

Joined up Careers Derbyshire are passionate about promoting the health and social care sector to educate on the range of roles and opportunities available - we've been doing this by attending 'market place' events, and are also able to offer an enhanced experience for students through a series of engaging and meaningful workshop sessions.

Joined Up Careers can offer enrichment workshop sessions to complement the health and social care curriculum. The practical nature of the sessions enables theory learned in lessons to be put into practice while embedding the knowledge and inspiring career choices.

Joined up Careers have developed a portfolio of engaging and interactive sessions that can be delivered anywhere between 30 and 50 minute slots (usually to classes no larger than 30 pupils). The enrichment sessions we currently offer are listed below:

- Careers in care
- Effects of ageing
- Equality and diversity
- Safeguarding adults
- Mental capacity and deprivation of liberty
- Skills and values (including the importance of maths and English)

We're also able to develop bespoke workshops at request.

*'The presentation had great insight into equality and diversity and the students were fully engaged. The presentation was very informative and easy flowing. The college would love more talks from Joined Up Careers for other groups of students.'*

**Derby College**

*'The pupils certainly found the presentation interesting and a number of them have shown an interest in pursuing some of the options. As a careers teacher, it opened up a world of opportunities that would not normally have been covered in such detail. I would be very interested in having more presentations from Joined Up Careers and would welcome the opportunity to discuss future topics and dates.'*

**Thomas Moore School**

If your school would be interested in accessing bespoke, interactive health and social care enrichment sessions, please contact Hazel Jones on 07973 625109 or email
