Have your say on health and care in Derbyshire

Society's health and care needs are changing. People are living longer, new medicines and technologies are being discovered and more of us are living with long-term conditions such as diabetes and asthma.

To meet these challenges, local councils, care homes and different parts of the NHS – hospitals, family doctors, mental health teams and others – have come together to form partnerships, and are working together more closely than ever before. In Derbyshire this partnership is called Joined Up Care Derbyshire (JUCD), Derbyshire Integrated Care System (ICS). The role of JUCD is to co-ordinate services better, keep people healthy and out of hospital and agree shared priorities for the future. Click [here](#) for more information.

JUCD has developed the Citizens' Panel to ensure that we can listen to and learn from our local residents. By sharing your feedback and opinions on health and care services, you can help us to design services that take into account 'what matters to people', on a range of topics related to health and care services.
